California Roadways

The California Film Commission (CFC), a one-stop shop, facilitates filming on California's roadways with its close partnership with the Department of Transportation (Caltrans) and the California Highway Patrol (CHP). Working with Caltrans, the California Film Commission issues film permits for all state highways and freeways. Film monitoring on state highways and roadways is provided by CHP.

The California Film Commission has an on-site California Highway Patrol (CHP) Film Liaison who is available to assist with filming on State freeways and highways. This liaison advises and schedules CHP officers for film shoots.

California Highway Patrol Media Relations Officer

Office Kristi Cardoza is the contact for all unincorporated county roads, state highways, and freeways. Officer Cardoza coordinates requests for CHP officers for film details, facilitates the approval process, and trains officers to handle the unique situations that might occur during location filming. When filming on state property, be advised that officers are not automatically assigned and need to be reserved in advance of filming. Permit applications must be submitted to the CFC at least four (4) business days (or 96 business hours) in advance of an activity. This will allow time for the CFC, CHP and Caltrans to properly assess the feasibility of issuing a permit.
